

RUNNING FOR HELEN MISSION ACCOMPLISHED!

NOW PLEASE HELP US REACH OUR ULTIMATE GOAL £500,000 FOR MARIE CURIE CANCER CARE

Start spreading the news...

each and every member of the "Running for Helen" team successfully completed the New York Marathon on November 1st 2009, a fantastic achievement in celebration of a remarkable woman, Helen Verity.

Helen is suffering from an incurable form of cancer and, in tribute to Helen, the team has set themselves the goal of raising half a million pounds for Marie Curie Cancer Care, whose nurses provide professional care, completely free, in the homes of terminally ill cancer patients.

The hard yards have been pounded and the team have dragged their aching limbs back to blighty, but their work is not complete. Please help them achieve their goal by supporting this fantastic cause.

Thank you.

Marie Curie Cancer Care provides high-quality nursing, totally free, to give people with terminal cancer and other illnesses the choice of dying at home supported by their families.
